DIFFERENTIATORS

Team JE prioritizes safety and efficiency to maximize client satisfaction through constant training and communication.

Team JE solves problems creatively providing cost savings for clients.

We are a Minority-Owned Business and a Certified California Small Business

COMPANY DATA

Team JE

Founded in 2005, Joseph Engineering is a privately held Minority-Owned Small Business located in Santa Maria, CA, serving Santa Barbara County and San Luis Obispo County. We have 24 employees and have completed over 400 projects on time and within budget.

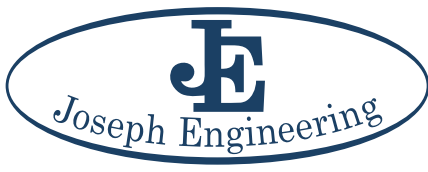

Our mission is to provide superior and honest service to our customers, safe and secure jobs for our employees, and an efficient and profitable bottom line while being a local leader in the construction industry.

Joseph Engineering is the honored recipient of the Pacific Coast Business Times "Spirit of Small Business" for Northern Santa Barbara County Award.

\$5 million bonding capacity aggregate/ \$2.5 million single (additional may be added as necessary). Commercial Liability \$1MM per occurrence / \$2MM aggregate; \$2MM Products and Completed Operations Aggregate; \$5MM Umbrella

CAPABILITY STATEMENT

CLIENT RECORD

♦ FRONTIER COMMUNICATIONS / HCI & LINEWORKS

Contract Length: 2022-2023

Contract Amount: \$1,166,954

Scope of Work: Installation of communication infrastructure from demolition to conduit installation to final restoration, our team successfully placed over 100,000 feet of conduit using horizontal directional drilling and open trenching methods.

♦ COMCAST INC. / HAYES CONSTRUCTION

Contract Length: 2020-2024

Contract Amount: \$1,118,533

Scope of Work: Install thousands of conduits for communication infrastructure using horizontal directional drilling and open trenching methods. Perform projects from demolition stage to final restoration. Notably, we collaborate with CalTrans for projects involving CalTrans right-of-way intersections, such as under or near Highway 101.

♦ BALFOUR BEATTY COMMUNITIES - GRADING AND XERISCAPING

Contract Length: 2020-2023

Contract Amount: \$350,056

Scope of Work: Execute precise grading, material hauling and xeriscaping in the median area at Vandenberg Space Force Base.

♦ GOLDEN STATE WATER - MSA AND CAPITOL PROJECTS

Contract Length: 2012-2024

Contract Amount: \$1,662,619

Scope of Work: Perform repairs, maintenance and install water utility systems, handling projects from small line replacements to extensive 8-inch main replacements spanning thousands of feet. We manage the process from initial demolition to final restoration, ensuring comprehensive service delivery. Notably, we collaborate with CalTrans for projects involving CalTrans right-of-ways in the project path.
